A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Seant and falling hair, it is now known, is caused by a parasite that burrows into the scaip to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new re-sult of the chemical laboratory, destroys dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists.
